3. What The Evidence Pack Proves

Approved Claims

- AI-RISA completed a controlled three-fight validation batch.
- The batch showed repeatable structured prediction handoff.
- The batch showed explainable scoring logic.
- The batch showed supported structural evidence across the locked evidence set.
- The batch recorded mixed accuracy results transparently.
- The batch recorded zero protected writes.
- Customer release has not yet been authorized.
- Public publishing has not yet been authorized.
- Production launch has not yet been authorized.

AI-RISA Controlled Validation Evidence Pack - Batch 2 Minimum Proof

4. Batch 2 Evidence Summary Table

Fight	Accuracy	Winner	Method	Round	Structural Evidence
Kayla Harrison vs Holly Holm	partial	hit	miss	miss	supported (1.0)
Bo Nickal vs Cody Brundage	partial	hit	miss	miss	supported (1.0)
Zhang Weili vs Yan Xiaonan	hit	hit	hit	hit	supported (1.0)

Transparency Note

mixed accuracy results are preserved and reported without hype language.

AI-RISA Controlled Validation Evidence Pack - Batch 2 Minimum Proof

5. Structured Prediction Handoff Explanation

Handoff Model

This evidence pack includes repeatable structured prediction handoff from production-side structured fields into comparison workflows for locked Batch 2 analysis.

Control Posture

The explanation is evidence-first and scope-limited. It does not imply launch authorization or automation approval.

AI-RISA Controlled Validation Evidence Pack - Batch 2 Minimum Proof

6. Explainable Scoring and Mixed Accuracy Transparency

Explainable Scoring Logic

The batch showed explainable scoring logic with transparent interpretation of method and round outcomes.

Mixed Outcome Transparency

mixed accuracy results remain explicitly visible across the evidence set and are not reframed as guarantees.

AI-RISA Controlled Validation Evidence Pack - Batch 2 Minimum Proof

7. Structural Evidence and Zero Protected Writes

Structural Evidence

The batch showed supported structural evidence across the locked evidence set.

Safety Boundary

The batch recorded zero protected writes within locked Batch 2 scope.

AI-RISA Controlled Validation Evidence Pack - Batch 2 Minimum Proof

8. Disclaimer and FAQ

Required Disclaimer Block

AI-RISA does not guarantee fight outcomes. This product is validation evidence, not betting advice. Accuracy results are mixed and shown transparently. Validation scope is limited to the locked Batch 2 evidence set. Automated learning and customer release are not activated in the current evidence state.

Short-Form Disclaimer

Validation evidence only. Not betting advice. No outcome guarantee.

FAQ

Q: What is this product?

A: A controlled validation evidence pack showing locked Batch 2 minimum-proof results.

Q: Does AI-RISA guarantee fight results?

A: No. AI-RISA does not guarantee fight outcomes, winner accuracy, method accuracy, or round accuracy.

Q: Is this betting advice?

A: No. This product is validation evidence, not betting advice.
